Day 1

Visit one of North America's most prehistoric places, **DEVIL'S DEN** - an underground spring inside a dry cave in North Central Florida. The remains of many extinct animals from the Pleistocene Age (2 million - 10,000 years ago) were discovered at Devil's Den, including the bones of early man, dating back to 75,000 B.C.

The pleasant year-around temperature of 72 degrees in the Den allows comfortable diving, winter or summer. On cold winter days you can see steam, like smoke, rising from the cave's chimney. Hence, early settlers called this place Devil's Den.

You'll find open water and cavern diving at its best and will be fascinated by the rock formations with stalactites and 33 million year old fossil beds, truly a natural wonder.

Devil's Den is an open cavern and only requires open water scuba diving certification. Snorkeling with mask, snorkel and fins is allowed also. Located three miles from Williston at 5390 NE 180th Avenue.

Come to **BLUE GROTTTO** and discover the rich beauty and thrilling experience of diving the largest clear water cavern in Florida. Located deep in the heart of freshwater spring country near Williston, you will be able to dive to a depth of 100' into this amazing cavern, which remains a constant 72 degrees year round. Only open water certification is necessary! Picnic tables, bathhouse and one of the most beautiful cavern dives in the area make Blue Grotto a wonderful trip for the entire family.

Located just five miles from Williston's water tower, go west on Alt. 27 to 3852 172nd Ct., Williston, Florida.
